"You've stumbled across a website offering an accommodation directory and after spending what feels like hours trying to get the right destination you now settle in to sift through the pages upon pages of listings looking for the right accommodation to suite your needs. You find that the website while looking great doesn't offer too much information about the establishment you are viewing, so you decide to contact the establishment to find out a little more only to never hear from them.." Sound Familiar?

With **Travel Direct 101**, we have simplified this process. First of all, because **Travel Direct 101** advertises for establishment in **South Africa** and **Namibia**, the potential for a large number of listings is great. That is why we have decide that instead of just one website, it would best service the client (both the establishment and the potential guest) to have specific websites dedicated to each of the provinces and regions of **South Africa** and **Namibia**.

With that in mind **Travel Direct 101** launches with a total of 23 websites, 10 for the **South African** Provinces (9 official provinces plus the Garden Route) and 13 **Namibian** regions. With separate websites, the amount of establishment to sift through is lessened, saving you time in selecting the right **accommodation** establishment to suite your needs, while also giving us the opportunity to highlight the key interest points of that province or region, giving your more information to help assist you in making your choice.

Once you have found an establishment that you like and wish to make a reservation or just an enquiry, this is where the magic of **Travel Direct 101** happens. **Travel Direct 101** agents handle all this for you. Your enquiry/ reservation will be forwarded to us and the **accommodation** establishment will be contacted on your behalf. **Travel Direct 101** will act on your behalf handling all matter with regards to the

accommodation

reservation.

Travel Direct 101
